Substance Abuse Counselor retires

On Tuesday, December 4, 2007, Cliff Sanders, LPC, LADC, started working for the Kickapoo Behavioral Health Program. And after many years as a mental health therapist and substance abuse counselor, Cliff made the decision to retire on Friday, April 29, 2011.

McIntosh receives national award

STILLWATER, Okla. - Tribal member Morgan McIntosh, a high school senior from Calvary Chapel High School in Santa Ana, California, has been selected as the national winner of the 2011 Dave Schultz High School Excellence National Award presented by the National Wrestling Hall of Fame & Museum.

Frontier City Fun Day

The Kickapoo Tribal Health Center honored their employees for their hard work and dedication! As an appreciation the employees and their families were treated to Fun Day at Frontier City on July 23. The employees also voted for their seven dwarfs of the health center and they awarded with a certificate and \$50 gift card to Walmart.

Storms cause damage in Douglas

By Bruce Whetten
Douglas Dispatch
Local storms over the weekend, some heavy at times, caused some damage around town also triggering a swift water rescue.

While many streets were flooded and washes running one structure, located on 17th Street and H Ave., lost its roof Thursday night.

Emergency personnel were called to the scene around 6:30 p.m. to find an unoccupied warehouse with part of its roof missing. A good portion of it was in the street on H Ave. forcing local law enforcement to get out in the heavy rain and close off the area.

H Ave where the section of roof was lying remained closed Friday morning.

Law enforcement personnel said gusty winds that were part of Thursday's storm caused the damage.

Around 10 P.M. Friday evening emergency personnel were called to a swift water rescue on Washington and 34th Street in Bay Acres.

A Jeep Loreto attempted to make it through a flooded

Strong winds ripped off the roof from this warehouse.

section on Washington only to be stalled by the rushing current.

Crews from the Douglas

Fire Department responded to the scene and helped get the three male occupants of the vehicle to safety without

any injuries.

Weather officials around southern Arizona estimate Douglas may have had

anywhere from an inch to two inches of rain Thursday, Friday and Saturday depending on the location.
