Substance Abuse Counselor Retires

Cliff Sanders
LPC, LADC
Kickapoo Health Center and Behavioral Health Services

On Tuesday, December 4, 2007, Cliff Sanders, LPC, LADC, started working for the Kickapoo Behavioral Health Program. And after many years as a mental health therapist and substance abuse counselor, Cliff made the decision to retire on Friday, April 29, 2011.

During his career, Mr. Sanders had worked for the Shawnee Public Schools, Absentee Shawnee Tribal Health Center and then four years with the Kickapoo Behavioral Health Program. His commitment in patient success showed as he provided individual counseling, family counseling, group counseling, as well as, working with local drug courts and the Kickapoo Tribal

Court System. Cliff implemented a contract with Pottawatomie County Court System and once it was approved and accepted, the KTO BH Program became a Native American resource for the area.

Cliff will also be remembered for his work at the Health Center for his caring attitude as a counselor who wished to see individuals turn away from their addictions, to see

families reunited, and for them to gain a healthier and happier life. He worked diligently to help those get to a better place and, without a doubt, many individuals are thankful to Cliff for all his help and encouragement.

On April 29, 2011, a Retirement Party was held in honor of Cliff who was accompanied by his wife

Kathy. Fellow employees made nice comments about his work, and thanked him for his friendship. Cliff received a plaque, a watch, and a gift card. The reception ended with a wish for a great retirement!

Happy Retirement Cliff, you deserve the best!
